To open the side preview window click(ctrl+k v) or click (ctrl+shift+p) and then search markdown and select preview markdown

1- Headings Topic

H1

H2

H3

H4

H5

H6

2- Block of words

This is the normal text in markdown

> This is the special text
>
> This is the special text line 2

3-Line break

(we can do line break by () forward slash or the second way is to double enter the line)

This is a course of Data science with python
This is the second line of the course of Data science with python

4- Face of text

Bold

Italic

Bold and Italic

Or we use different symbols

_ (underscore)

Bold

Italic

Bold and Italic

5-Bullets/List

- Mon
- Tue
- Wed
  - 10am
    - Sub list
  - 11am
- Thru
- Fri
- Sat
- Sun

we also use * or +

- One
- Two

- Three
- four

> Numbering of list

1. Day1

2. Day2

   2. 2A
   3. 2B

3. Day3

4. Day4 (it automatically correct the index number)

5. Day5

6-Line Break/ Page Break

There are three ways to break a page by (- , _ , *) This is page 1

___

This is page 2

7- Links and HyperLinks

https://www.youtube.com/
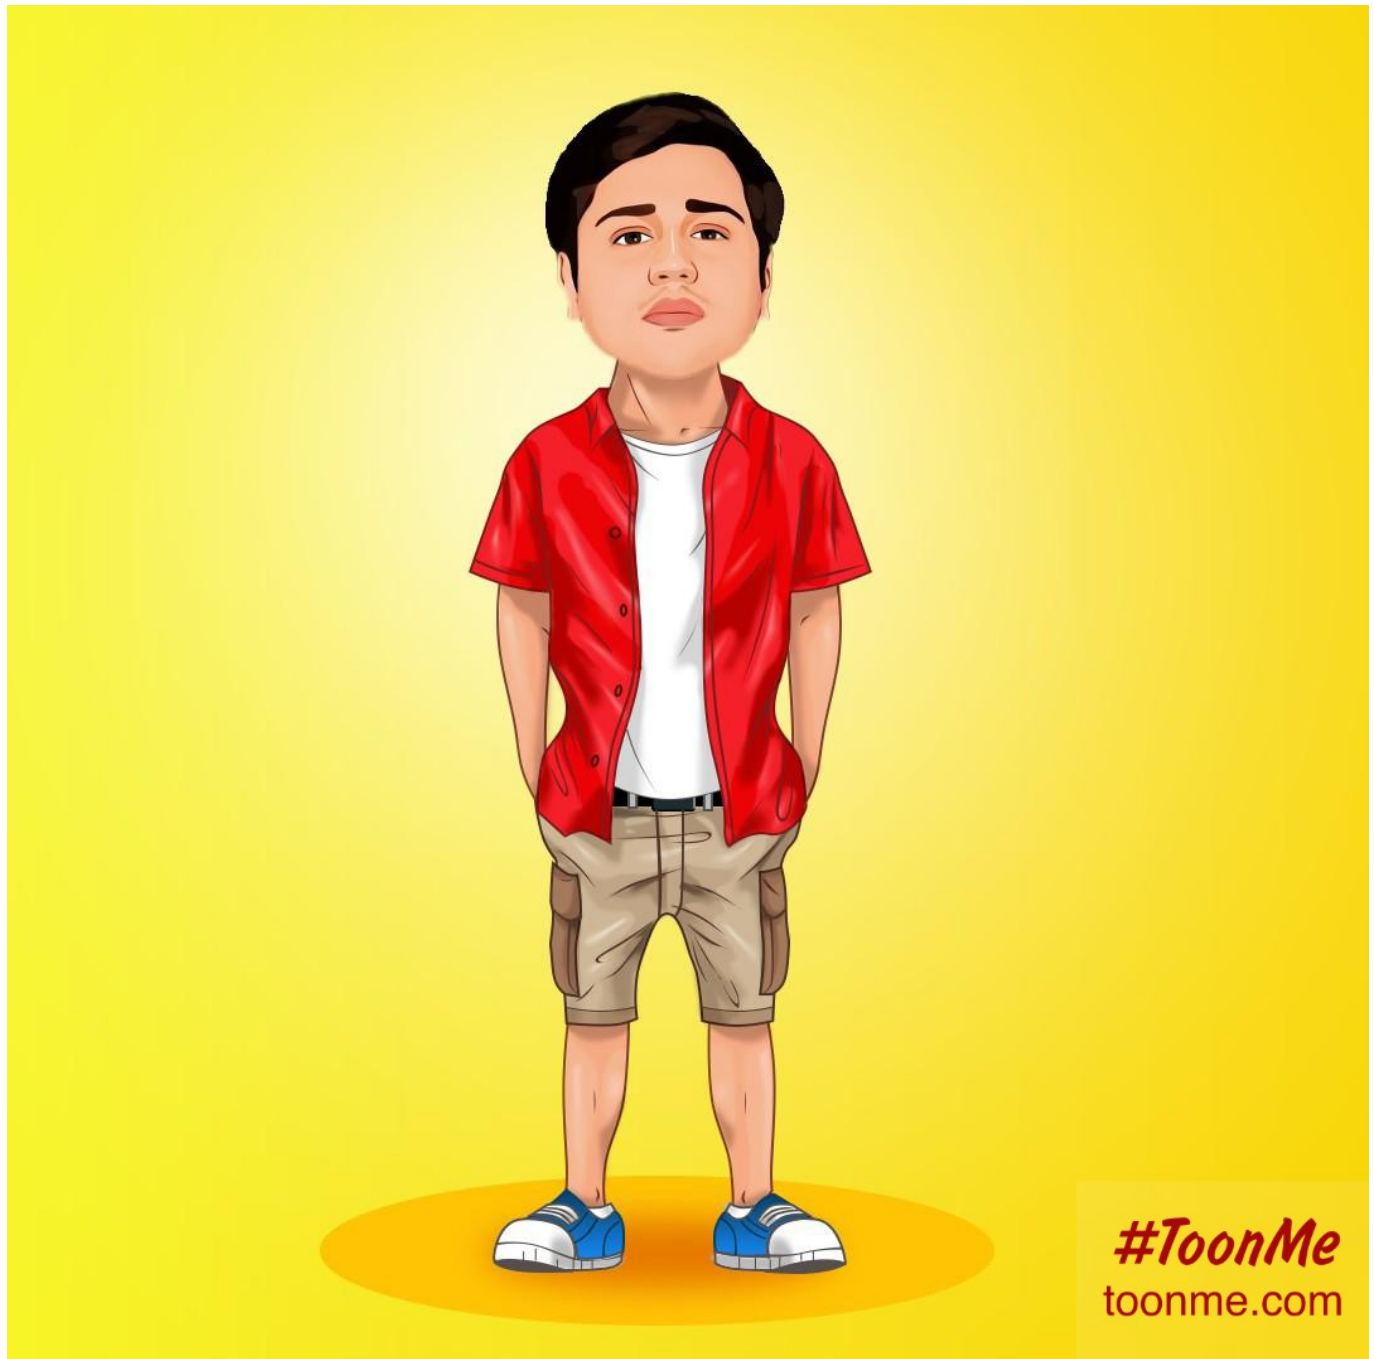

To open youtube click here

To open youtube click here

8- Images and figure with link

QR

9- Comments in markdown

10- Adding code or code block

To print a string use `print("HELLO")`

To print a code block use

```
print("HELLO WORLD!")
```

```
x = 5
y = 15
z = x+y
print(z)
```

> This code shows color according to Python language syntax

```
x = 5
y = 15
z = x+y
print(z)
```

> This code shows color according to R language syntax

```
x = 5
y = 15
z = x+y
print(z)
```

11- Adding Tables

> If we want to align the table columns then we place : , if we place : in the left side then it will align in left side if we place : in right side then it will align right side and if we place : both left and right side then our columns is in center align

| species	petal_length	sepal_length
virginica	18.2	17
setosa	12.2	13
versicolor	19.2	15
